## **4EVER Group Local Association Video Library**

### ***The International Video Exchange Program***

*Objective: For local associations to have the opportunity to view videos submitted by other associations; to add quality content and education to the agenda of local association meetings.*

#### **The 4EVER Group Video Library works as follows:**

To participate in the program, a local association must first contribute their own video submissions to the program. The submission can either be videos that were produced by videographers from your association OR a taped seminar or workshop that provides education to the wedding and event industry (permission from speaker required).

1. Videos that have been produced by videographers can come from your local competition, film festival or an informal “show us your stuff” segment. We ask that each video you submit be no longer than necessary and that all videos be put on a DVD.

If your association does not hold a competition or film festival, the 4EVER Group Local Association committee can help you start one or both of these programs for you.

2. Videotaped seminars and workshops may be submitted providing that there is educational content for the event video industry. The submissions will ONLY be accepted if there is a written and signed consent form from the person or group who is giving the presentation and has full knowledge of the intentions of the recording. The 4EVER Group will provide the consent forms upon request.
3. Once you have donated your association’s entries, you may now request and borrow a DVD from another local association of your choice.
4. After you have viewed the DVD at one of your meetings, we ask you to return the DVD, using the self addressed envelope, back to the 4EVER Group and you are then free to take out a different DVD and so forth.
5. Each year we request that you to replenish the Library with new entries of work or content.

*We do not require, but advise that you watermark your entries with either a company logo or your local association logo.*
